

# Local Sync

## Local Sync keeps you connected to your local shoppers!

Local shoppers are looking for YOU on their desktop computers, tablets and smartphones. If your business isn't there... they turn to your competitor.

### With Local Sync YOU get:

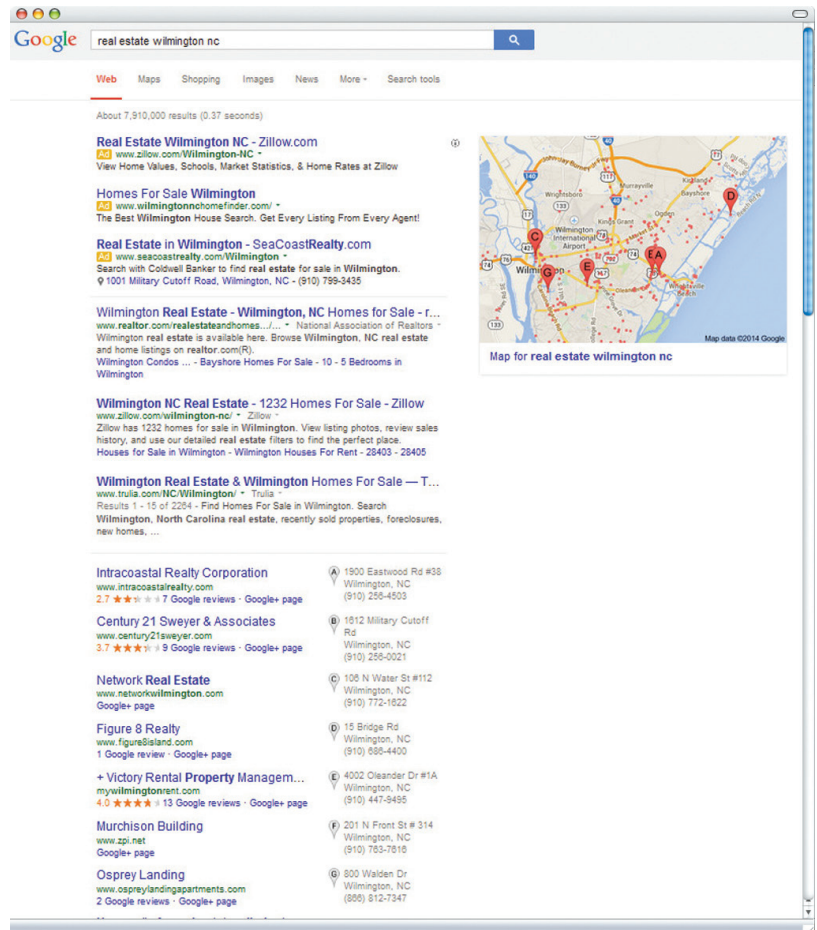

- **Fully managed directory profiles** ensure that your business information is up-to-date and accurate across dozens of search engines, mobile apps, and mapping sites. With just one phone call or email, our team will ensure that these are all updated for you.

- **Extended profiles** include additional information about your business (biographies, menus, service descriptions, videos, photos, etc.). Listings with additional information (i.e. videos and photos) get up to 282% more clicks than the average listing.

- **Engage your customers with coupons and special promotions.** We'll push out your promotions across our entire network of search engines, apps, and mapping sites.
